

# Renewable Energy Insurance

# Three Decades of Experience in Renewable Energy Insurance

**With over 30 years' experience in the sector we are one of the lead insurers for the renewable energy insurance industry. So you get a policy tailored to the unique exposures and challenges faced by companies in this sector.**

## Expert risk consultancy

We can work with renewables projects at any stage – from design all the way through to operations performance. Our expert risk consultants have many years of experience working across the sector, and we can provide recommendations to help customers improve their practices for the long term.

## Areas we work in, cover we offer

We work for a wide range of businesses in the renewable energy sector, including

- Solar
- Bio
- Hydro
- Wind
- Battery storage

With our deep understanding of the sector, we're able to offer cover that includes:

- Construction all risks
- Erection all risks
- Operational all risks
- Advanced loss of profits / delay in start-up
- Machinery breakdown
- Business interruption

## Excellent service, fast response

### Dedicated phone lines

It's always easy to get in touch with us when you need.

### 24-hour response

Quotation enquiries receive a response within 24 hours.

### Bespoke solutions

Our expertise means we can tailor cover to suit the specific needs of each business.

## A fast, effective claims service

### Stay involved

We work closely with you throughout the life of a claim. We ensure claims handling is tailored appropriately at all stages.

### Know who to talk to

One person manages your claim from start to finish – so they know exactly what's going on, and you know who to call.

### Get it settled

We always focus on settling claims as quickly and fairly as possible.

## What brokers say about us...

*"We have a really good relationship with the team."*

*"Very technical, easy to access and they provided detailed information."*
