5. Profiling and automated decision making

We may conduct the following activities, which involve profiling and automated (computer based) decision-making:

- The use of Pricing and Underwriting engines and algorithms – these processes calculate the insurance risks based on the information you have supplied or that we have collected about you. This will be used to determine if we can provide, or continue to provide, you with a policy and to calculate the premium you will have to pay.
- The use of Telematics/ Smart Sensor data analytics – where you have opted for an insurance product that collects information using smart sensors (e.g., in-car "black box") and this is used to calculate your insurance risk (driving score) and/or mileage scores.

The results of these processes may determine if we can provide, or continue to provide, you with a policy and/or calculate the premium you have to pay. If you do not agree with the result, you have the right to request human intervention to allow you to express your point of view, to obtain an explanation of the decision reached and contest the decision.

6. For how long will RSA keep your information?

In general, we will retain your personal information for a period of 7 years from the date of cancellation of your contract of insurance or the closure/settlement of your claim. Quote information is retained for 15 months. There may be reasons why we need to retain your personal information for longer periods, for example in the case of employer's liability insurance and subsidence matters, or to comply with our legal and regulatory obligations.

7. What are your Rights over the personal information that is held by us?

You have certain legal rights under data protection law in relation to your personal information:

- 1 To correct any information we hold about you if you believe it's incorrect or incomplete – please contact your intermediary or us directly to have this updated.

- 8 To contest decisions based solely on automated decision making, express your point of view and ask for human intervention.

Please note that requests to restrict the use of your personal information or to object to the processing of your personal data may lead to us being unable to continue to service your policy and therefore lead to cancellation of your policy.

If you would like to request any of the above rights, please email us at ie_dataprotection@ie.rsagroup.com or write to us at the address contained in Section 9 of this notice. When you are making a request please provide us with your name, address, date of birth and any policy or claim IDs that you have. If we cannot meet this time frame due to the complexity or repeated nature of a request, we will let you know as soon as possible and explain the reason for this in our response. Please note that simply submitting a request does not mean we will be able to fulfil it or in its entirety – we are often bound by other legal and regulatory obligations or may rely on a lawful exemption which restricts the scope of our obligations as a Data Controller. When this is the case we will explain this to you in our response.
